About Me

Enthusiastic and self-motivated web developer, I am student of programming course by Legoom Academy before and successfull to complete the course. My journey has equipped me with a solid foundation in programming, algorithms, and data structures. My ultimate goal is to contribute my skills and knowledge to innovative projects while maintaining a continuous learning mindset and fostering growth in the field.

Experience

Legoom Student (Web and Mobile development)   *Jun 2023 - Sep 2023*

- Developed doctor appointment management system for the web and mobile(android) platform.
- Utilized Laravel for both the frontend and backend in the web version, and for the mobile app, I combined Flutter for the frontend with Laravel for the backend.
- Designed RESTful APIs using Laravel, allowing Flutter to retrieve data from the API.
- implemented authentication for login and registration, also includes dedicated sections for doctors, patients, and administrators.

skills

- PHP
- ReactJS
- Laravel
- Bootstrap

- Problem-solving
- GIT
- HTML & CSS
- Javascript
